What's Your ERM Business Objective?

Sample Business Objectives

- Reduce company risks and costs by transforming and centralizing policies, processes, methods and training.
- Leverage existing and acquire new applications and technologies to be deployed in a prioritized, phased automation of the electronic records lifecycle.
- Reduce electronic storage and maintenance costs by applying retention periods and legal hold criteria.
 - eMail
 - File shares
 - Other expired electronic information
- Improve eDiscovery processes & reduce associated costs.
